Herbert Simon's Administrative Behavior and Robert Dahl's, The Science of Public Administration: Three Problems; critically questioned the inadequacies and limitations of the orthodox public administration of the pre war days. Simon focused on the aspect of decision making in Public Administration and stressed on the need to develop a robust and relevant administrative theory based on ...

[THÉORIE DES ORGANISATIONS - Encyclopædia Universalis](#)

Leadership behavior that is active, aggressive, directive, structured, and task-oriented seems to have favorable results early in the group's history. However, when those behaviors are maintained throughout the life of the group, they seem to have a negative impact on cohesiveness and quality of work. Conversely, leadership behavior that is supportive, democratic, decentralized, and ...

Thirty years ago, in Administrative Behavior, Herbert Simon (a 1977 Nobel laureate) antici- pated several themes that dominate much of today's thinking about organization. Simon's concepts of "satisficing" (settling for ade- quate instead of optimal solutions) and "the limits of rationality" were, in effect, nails in the coffin of economic man. His ideas, if correct, are crucial. The economic ...
